

ITRC Internet-based and Classroom Training (including short course and multi-day)

Participation Summary from 06/01/1997 to 06/30/2017

All Organizations All Regions All States Report

ITRC at www.itrcweb.org -- Your Training Partner

The Interstate Technology and Regulatory Council (ITRC) is your training partner providing training on key environmental topics. ITRC offers classroom-style training as well as Internet-based training. ITRC's multi-day classroom training events include hands-on problem solving to engage the students with real world and site applications. Multi-day classroom training is often provided in conjunction with an ITRC member state. ITRC also offers shorter classroom training events often in conjunction with existing meetings or conferences. Internet-based training allows participants to attend from their own office or conference room with no down time or cost for travel. Internet-based training classes are sponsored by ITRC in conjunction with EPA through their CLU-IN website (www.clu-in.org) with no cost for the participant.

	Participant Count	Training Hours
State/Local Government	47,099	160,303.50
U.S. EPA	5,480	19,847.00
U.S. DOD	5,546	20,633.75
U.S. DOE	1,519	4,630.00
Other Federal Agency	1,981	5,568.50
Consultant/Engineering Firm	63,093	178,686.50
Community Stakeholder	353	1,338.75
Site Owner	3,214	9,934.50
Technology Vendor	1,071	4,457.00
Academia	1,869	6,723.50
Other	6,522	18,769.00
Total All Participants	137,747	430,892.00

A "participant" is an individual attending a training class. For ITRC's Internet-based training classes, participants at the same location may share a phone line and/or computer in which case one registrant represents many participants. The same individual is counted again each time (s)he participates in a class.

1997 to June 2017 Total State/Local Government Participants : 47,099 Total State/Local Government Training Hours : 160,304

Top Training Topics Attended by Participants Overall 06/01/1997 to 06/30/2017

An Improved Understanding of LNAPL Behavior in the Subsurface - State of Science vs. State of Practice - Part 1	6,820
LNAPL Characterization and Recoverability - Improved Analysis - Part 2	5,984
Groundwater Statistics for Environmental Project Managers	5,722
Petroleum Vapor Intrusion: Fundamentals of Screening, Investigation, and Management	5,118
ISM Part 1 - Soil Sampling and Decision Making Using Incremental Sampling Methodology - Part 1	4,979

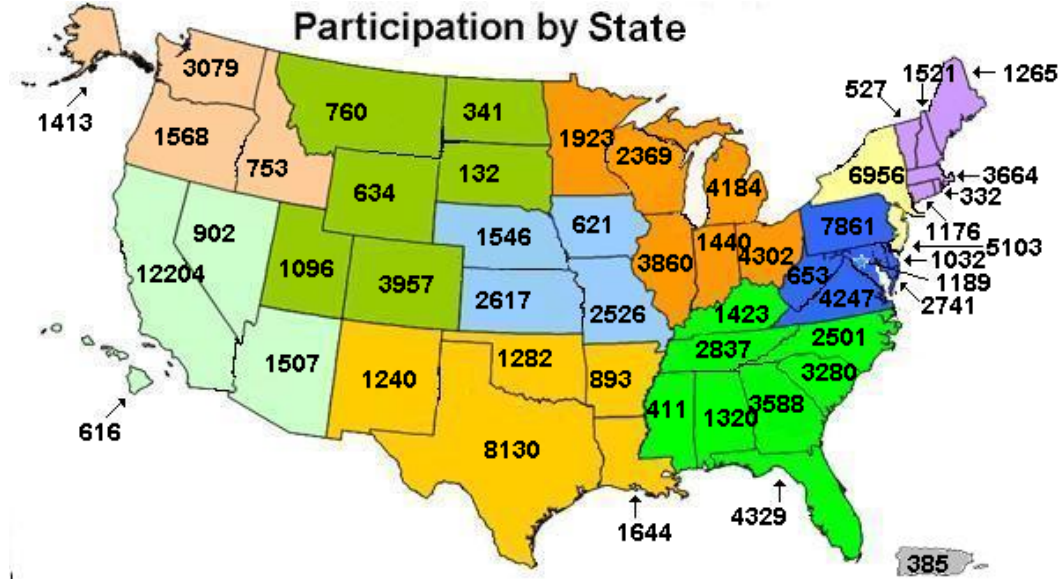

Additional Training Topics Attended by Participants

Vapor Intrusion Pathway: A Practical Guideline (4,699)
 Natural Attenuation of Chlorinated Solvents in Groundwater: Principles and Practices (4,384)
 Evaluating LNAPL Remedial Technologies for Achieving Project Goals - Part 3 (4,265)

About the Interstate Technology and Regulatory Council (ITRC)

The Interstate Technology and Regulatory Council (ITRC) is a state-led coalition of regulators, industry experts, citizen stakeholders, academia, and federal partners that work to achieve regulatory acceptance of environmental technologies and innovative approaches. ITRC's guidance documents, training courses, and network of experts provide resources to assist the environmental community in making quality, expedited decisions when determining the appropriateness of environmental technologies as part of effective environmental waste management.

Overall ITRC's Training 06/01/1997 to 06/30/2017

ITRC Addresses Innovative Environmental Technologies and Approaches

ITRC training courses are developed and delivered by ITRC's technical teams and typically based on the teams' technical and regulatory guidance documents. The ITRC instructors are working environmental experts -- state regulators, environmental consultants, and federal employees. Our training courses are catalysts for quality decision-making, leading to cost-effective applications of innovative technologies and approaches. These tools and resources provide consensus-based and consistent guidance for all sectors in the environmental community to use collectively.

Comments from ITRC Internet-based Training Participants

- The training is practical. -- Maryland State Regulator
- Thank you for organizing these webinars and making them free and accessible for everyone. My agency and I both appreciate you offering the Certificate of Attendance, too. Thanks so much. Keep up the good work! -- Illinois State Regulator
- Thanks for the opportunity to get better at what we do! -- Environmental Consultant
- I am a relatively new Project Manager and I believe that these documents will be very important in my future work and career. -- West Virginia State Regulator
- I have gotten more out of the 2 ITRC seminars I have taken than any of the courses or conferences I have spent thousands of dollars on... -- Environmental Consultant
