

ITRC Internet-based and Classroom Training (including short course and multi-day)

Participation Summary from 06/01/1997 to 12/31/2016

All Organizations All Regions All States Report

ITRC at www.itrcweb.org -- Your Training Partner

The Interstate Technology and Regulatory Council (ITRC) is your training partner providing training on key environmental topics. ITRC offers classroom-style training as well as Internet-based training. ITRC's multi-day classroom training events include hands-on problem solving to engage the students with real world and site applications. Multi-day classroom training is often provided in conjunction with an ITRC member state. ITRC also offers shorter classroom training events often in conjunction with existing meetings or conferences. Internet-based training allows participants to attend from their own office or conference room with no down time or cost for travel. Internet-based training classes are sponsored by ITRC in conjunction with EPA through their CLU-IN website (www.clu-in.org) with no cost for the participant.

	Participant Count	Training Hours
State/Local Government	44,762	155,027.00
U.S. EPA	5,184	19,179.25
U.S. DOD	5,409	20,325.50
U.S. DOE	1,470	4,519.75
Other Federal Agency	1,867	5,312.00
Consultant/Engineering Firm	59,606	170,786.75
Community Stakeholder	333	1,293.75
Site Owner	3,015	9,486.75
Technology Vendor	1,038	4,382.75
Academia	1,714	6,374.75
Other	6,118	17,860.00
Total All Participants	130,516	414,548.00

A "participant" is an individual attending a training class. For ITRC's Internet-based training classes, participants at the same location may share a phone line and/or computer in which case one registrant represents many participants. The same individual is counted again each time (s)he participates in a class.

1997 to December 2016

Total State/Local Government Participants : 44,762
Government Training Hours : 155,027

Total State/Local

Top Training Topics Attended by Participants Overall 06/01/1997 to 12/31/2016

An Improved Understanding of LNAPL Behavior in the Subsurface - State of Science vs. State of Practice - Part 1	6,407
LNAPL Characterization and Recoverability - Improved Analysis - Part 2	5,682
Groundwater Statistics for Environmental Project Managers	4,944
Vapor Intrusion Pathway: A Practical Guideline	4,699
Petroleum Vapor Intrusion: Fundamentals of Screening, Investigation, and Management	4,475

Additional Training Topics Attended by Participants

ISM Part 1 - Soil Sampling and Decision Making Using Incremental Sampling Methodology - Part 1 (4,454)
 Natural Attenuation of Chlorinated Solvents in Groundwater: Principles and Practices (4,384)
 Evaluating LNAPL Remedial Technologies for Achieving Project Goals - Part 3 (4,010)

About the Interstate Technology and Regulatory Council (ITRC)

The Interstate Technology and Regulatory Council (ITRC) is a state-led coalition of regulators, industry experts, citizen stakeholders, academia, and federal partners that work to achieve regulatory acceptance of environmental technologies and innovative approaches. ITRC's guidance documents, training courses, and network of experts provide resources to assist the environmental community in making quality, expedited decisions when determining the appropriateness of environmental technologies as part of effective environmental waste management.

Overall ITRC's Training 06/01/1997 to 12/31/2016

ITRC Addresses Innovative Environmental Technologies and Approaches

ITRC training courses are developed and delivered by ITRC's technical teams and typically based on the teams' technical and regulatory guidance documents. The ITRC instructors are working environmental experts -- state regulators, environmental consultants, and federal employees. Our training courses are catalysts for quality decision-making, leading to cost-effective applications of innovative technologies and approaches. These tools and resources provide consensus-based and consistent guidance for all sectors in the environmental community to use collectively.

Comments from ITRC Internet-based Training Participants

- I really appreciate the ITRC teams work. They do an excellent job that contribute to all people who work with the environmental protection and restoration. Congratulations by this initiative and thank you. -- Environmental Consultant
- Thank you for organizing these webinars and making them free and accessible for everyone. My agency and I both appreciate you offering the Certificate of Attendance, too. Thanks so much. Keep up the good work! -- Illinois State Regulator
- Thanks for the opportunity to get better at what we do! -- Environmental Consultant
- I am a relatively new Project Manager and I believe that these documents will be very important in my future work and career. -- West Virginia State Regulator
- I have gotten more out of the 2 ITRC seminars I have taken than any of the courses or conferences I have spent thousands of dollars on... -- Environmental Consultant
