

2022 ITRC Priorities

ITRC developed the 2022 ITRC Priorities using the results from the **2021 ITRC Membership Environmental Priorities** survey. We encourage proposals that will address these priorities, but we will also consider proposals that address environmental issues not included in this list. ITRC will also consider proposals that would update existing ITRC documents.

The priorities listed below are not in any order of significance – and new ideas are welcome for Pre-Proposals!

Cross Media: Chemicals of Emerging Concern

- ❖ Chemicals of Emerging Concern: Process for Early Identification
- ❖ New Contaminant on the Horizon
- ❖ EtO

Drinking Water - Identification of treatment technologies *(for a range of regulated and emerging chemicals)*

- ❖ Pharmaceuticals in Drinking Water
- ❖ Identification of treatment technologies (for a range of regulated and emerging chemicals)

Waste

- ❖ Advancements in Brownfields Cleanups
- ❖ Mining Waste
- ❖ Medical Waste
- ❖ Managing waste streams related to electronic waste disposal (solar panels, wind turbines, EV batteries, other)

Climate Change

- ❖ Carbon Removal & Sequestration
- ❖ Methane
- ❖ Deforestation Impacts
- ❖ Ocean Acidification
- ❖ Greenhouse Gas Reporting & Monitoring

ITRC Topics – Updates Needed

- ❖ Munitions Underwater Detection
- ❖ Stormwater
- ❖ Others (see ITRC [Guidance Documents](#))
