

State Membership

Overcoming barriers and promoting the use of innovative environmental technologies for faster, more effective environmental decision-making

"Membership in ITRC has broadened my technical skills and introduced me to many talented and dedicated environmental practitioners from across the nation." ~ Brian Davis, Minnesota Pollution Control Agency/POC for Minnesota

Member Benefits

ESTABLISH CONNECTIONS

Collaborate with environmental professionals & increase knowledge with other environmental program leaders

Joining ITRC

ITRC PROJECT TEAMS

Learn more about ITRC's Project Teams.

DEVELOP CUTTING-EDGE ENVIRONMENTAL RESOURCES
Co-author new documents & training materials to make world-wide impact

MEMBERSHIP

Learn more about membership details and how to join.

EDUCATE & TRAIN ON ENVIRONMENTAL TOPICS
Help environmental professionals learn new technologies & solutions

TRAINING

Learn more about our educational opportunities and register for an upcoming training.

State Engagement Program

The State Engagement Program (SEP) ensures that ITRC is meeting the needs of states and that our resources are available, promoted, and used by state government employees. Each state assigns a staff person from its environmental agency to serve as an ITRC State Point of Contact (POC). States must have an appointed POC for its employees to participate in ITRC Programs and Project Teams.
