Interstate Technology & Regulatory Council

2027 Online Training Schedule

Registration: http://www.clu-in.org/live/

2027 Date (1pm ET Start)	ITRC Training Topic
January 19	Advanced Site Characterization Tools (ASCT) *(NEW)*
February 11	Energy Technology End-of-Life Management: Solar, Wind Batteries *(NEW) - CLU-IN page coming soon!*
February 16	PFAS Chemistry
February 25	Understanding Vapor Intrusion: Introductory Concepts & Fundamentals (a two-part series) Part 1
March 4	Introduction to Hydrocarbons
March 11	Understanding Vapor Intrusion: Introductory Concepts & Fundamentals (a two-part series) Part 2
March 16	PFAS Introductory
April 27	Vapor Intrusion Mitigation (a two-part series) Session 1
May 4	PFAS Sorption Based Technologies for Separation & Concentration of PFAS from Water
May 6	Vapor Intrusion Mitigation (a two-part series) Session 2
May 18	Advanced Site Characterization Tools (ASCT) *(NEW)*
June 8	Energy Technology End-of-Life Management: Solar, Wind Batteries *(NEW) - CLU-IN page coming soon!*

Course dates and times are subject to change. ITRC teams are developing new courses and will be adding new training topics and dates throughout the year, so please check back for updates!
